To Our Loyal Customers -

Thank you for your efforts to keep freight moving. Without you, nothing gets into the hands of millions of Americans.

To keep our customers and employees safe and healthy, we are taking the following steps:

- All management and employees are increasing our cleaning and disinfecting;
- We are encouraging social distancing and emphasizing good hygiene;
- We are accommodating companies and drivers wanting minimal contact, allowing them to stay in their trucks;
- We are encouraging employees to monitor their own health and stay home as needed.

We appreciate your patience and understanding through this challenging time.

*If you have it, a TRUCKER helped get it there!*
